Opening Act for Steel Wheels at Knuckleheads - October 13th, 2022

High velocity bluegrass ground out of Kansas City, MO. The new-found ensemble thrives on improvisation and genre-bending around core bluegrass instrumentation: guitar, mandolin, (bumpin') upright bass, fiddle, and banjo. At a live performance, expect to see them effortlessly step in and out of a mix of americana, country, traditional, and psychedelic music.

The group draws on their collective musical inspirations to put together an energizing, unique, and fun performance fit to turn any occasion into a once-in-a-lifetime party.
